

### Conference and exhibition Industrial Technologies 2012

The Industrial Technologies conference and exhibition, being the main event of the European Commission nanotechnology, materials, and new production technologies (NMP) theme, will be held in Aarhus, 19th - 21st of June 2012.

Participants will include members of the European Commission, the key research and technology organizations in Europe, and the front line R&D focused companies. The event will have substantial media coverage and serves as an ideal platform for speaking to decision makers.

IDEAS projekt will be presented during the exhibition. We are in the stand No. 27 in balcony of technology area. You are cordially invited.
