

Emerald Literati Network 2013 Awards for Excellence 2013: Participants of our project published a paper about IDEAS project in Assembly Automation last year. The paper has been chosen as an Outstanding Paper Award Winner at the Literati Network Awards for Excellence 2013. Every year Emerald invites each journal's Editorial Team to nominate what they believe has been that title's Outstanding Paper and up to three Highly Commended Papers from the previous year (2012). Our paper has been included among these and the article entitled "The IDEAS project: plug & produce at shop-floor level" published in Assembly Automation has been chosen as an Outstanding Paper Award Winner at the Literati Network Awards for Excellence 2013. The award winning papers are chosen following consultation amongst the journal's Editorial Team, many of whom are eminent academics or practitioners. Our paper has been selected as it was one of the most impressive pieces of work the team has seen throughout 2012. For more details of the paper please click [here](#)
